Gboard rolling out M3 Expressive redesign of shortcuts on Android

ACTION STEPS

- ✓ They're rolling out a Material 3 Expressive redesign for Gboard's shortcut page on Android.
- ✓ After months of testing, this isn't just a tweak; it's a full visual overhaul.
- ✓ Leveraging Material 3 Expressive, your shortcut management will feel much more modern and intuitive.
- ✓ Think Gboard needed this upgrade? Let me know!
- ✓ No more clunky interfaces. Expect a smoother, visually richer experience for all your Gboard shortcuts.
- ✓ It's rolling out to Android users now, so keep your Gboard app updated for the new look!
- ✓ Pro tip: For repetitive typing, set up text expansion shortcuts directly in Gboard settings!

PRO TIP:

For repetitive typing, set up text expansion shortcuts directly in Gboard settings to save even more time!
