One of Android's best PC game emulators just got a feature modders will love

ACTION STEPS

- ✓ Huge news! Android's best PC game emulator now runs all those crazy Skyrim mods directly on your phone.
- ✓ Epic visual overhauls, new quests, custom characters... all in your pocket! This unlocks massive mobile gaming potential. Which mod are you installing first?
- ✓ This isn't just Skyrim; it's PC RPGs unchained! The specific emulator isn't named, but watch for updates on your favorite Android emulator. Game-changing efficiency!

PRO TIP:

Many Android emulators support external game controllers for a full console feel.
