

# 1 Minute Google

One Google tip every day

---

## Google launches Gemini 3.6 Flash and 3.5 Flash-Lite, teases Gemini 4

### ACTION STEPS

- ✓ Today, they officially launched Gemini 3.6 Flash and 3.5 Flash-Lite, while also giving updates on what comes next.
- ✓ Are you even using Gemini much these days, or are you still on another AI? Let me know in the comments!
- ✓ Essentially, this means more AI iterations are on the way, likely bringing improvements and new capabilities. Since these were just announced, keep an eye out for official rollouts and more details on how to access them.

### PRO TIP:

*Bookmark Google's official AI blog - it's the fastest way to get actual details on these updates when they drop.*
